**i\_am\_ericobrien** Hi @neilpasricha I  
thought your session with Frank was my  
highlight of the week, authentic, thought  
provoking and engaging. Great stuff! 🍷  
By way of feedback, Finite over infinite is  
a wonderful insight. So very true. It  
explains the rise and rise of highly  
targeted, minimal brands and why they  
are so innately appealing to people. Also  
really liked, 'Our default starting point is  
now defensive - we look at things with  
suspicion'. In this age of distrust, it has  
never been more important for  
organisations to get off the fence,  
transcend the transactional, and  
demonstrate their real worth to the  
community by being values driven and  
authentic in how they do business. All  
top stuff! Thanks Neil 🌟

Great #sxsw talk this morning (Austin time) from @NeilPasricha on creating  
trust in an ever growing distrustful society.

Be finite, be human and go all in for what you stand for.

Very positive, aspirational given the current environment. A
