STUDIES IN PROGRESS:

Jeanette Ickovics (PI), **Katz DL** (co-PI; Center Director; principal author of grant application). Yale-Griffin Prevention Research Center Grant. Funding Source: CDC. Goal: the Yale Griffin Prevention Research Center's primary research agenda is to address the CDC "winnable battle" area of nutrition, physical activity, and obesity by using a multisite translational community trial (mTCT) approach, wherein a standard research protocol and intervention are applied in multiple sites, with tailoring using CBPR principles to meet the needs of each community. 9/14-9/19.

COMPLETED STUDIES:

Katz DL. Vascular Reactivity Assessment by a Novel Diagnostic Device, ANGIODEFENDER™, compared to using Brachial Artery Ultrasound Imaging (Protocol A-1302) – Part 2 (Brachial Artery Ultrasound Imaging -- A Repeatability Study (Protocol A-1601). 12/31/2016

Katz DL (PI): Flow-Mediated Dilatation: AngioDefender™ versus Brachial Artery Ultrasound Imaging – a Single Site US Pilot Study (A-1303). Goal: Detection of endothelial dysfunction by measuring vascular reactivity as assessed by flow-mediated vasodilation (FMD) of the brachial artery (BA). 12/13-12/14.

Last updated: 3/28/19

Katz DL (PI): Effects of ISOThrive supplement on Body Weight, Body Composition, Hunger/Satiety and Cardiac Risk Measures in Overweight Adults. 10/14-03/16

Katz DL (PI): Egg Ingestion in Adults with Type 2 Diabetes: Effects on Glycemic Control, Anthropometry, Diet Quality and Cardiometabolic Status. Goal: To determine the effects of daily egg inclusion (i.e. 2 eggs per day) versus egg exclusion on glycemic control in adults with Type 2 diabetes. Specifically, to show that daily egg inclusion for 3 months as compared to egg exclusion will improve HbA_{1c} in participants with Type 2 diabetes. To assess the effects of daily egg inclusion versus egg exclusion for a 3-month period on insulin sensitivity, anthropometric measures, and overall diet quality in adults with Type 2 diabetes. 10/13 – 9/15

Cleary P (PI), **Katz DL** (co-PI; Center Director; principal author of grant application). Yale-Griffin Prevention Research Center Grant. Funding Source: CDC. Goal: the Yale Griffin Prevention Research Center's focus is chronic disease prevention, with particular emphasis on diabetes and obesity, and health disparities, with studies in 4 key content areas: lifestyle modification, including behavior change and environmental reform; and health care system modification, including clinical preventive service delivery and chronic disease management. 9/09-9/14.

Katz DL (Co-PI): Integrative Medicine in Preventive Medicine Education (IMPriME) - National Coordinating Center. Goal: serve as key experts who will assist with faculty development through a variety of venues and dissemination channels and for IMP and other COL (see below) members who solicit guidance and specific content-related support for their efforts. 12/12-9/14.

Katz DL (Co-PI): Multisite RCT Investigating the Efficacy of Massage on Osteoarthritis; NCCAM/Duke University. Goal: To assess the duration of therapeutic effect of 8 weeks of Swedish massage. Therapeutic effect will be measured by validated outcome measures (WOMAC, VAS, ROM, 50-ft walk, and Pain Interference) at the conclusion of therapy (8 weeks), as well as at 16, 24, 36, and 52 weeks post-baseline. 9/11- 6/15.

Katz DL (PI): Walnut III - Walnut Ingestion in Adults at Risk for Diabetes: Effects on Body Composition, Diet Quality, and Cardiac Risk Measures. Goal: to examine the effects of walnut consumption on diet quality, body composition, and markers of cardiovascular risk in adults at risk for diabetes. 10/11-9/14.

Katz DL (PI): Kind Bar - Snacking, Satiety, & Weight: A Randomized, Controlled Trial. Goal: to compare the effects of consuming two types of snacks on a daily basis for a 12-week period on health outcomes, diet quality, and self-reported satiety in a group of overweight adults. 12/12-2/14.

Katz DL (PI): Effects of Cocoa on Ambulatory Blood Pressure and Vascular Function in Patients with Stage I Hypertension. 5/12-10/13.

Katz DL (PI): Nutrition Detectives and ABC for Fitness; Health Care Foundation of Greater Kansas City. Independence, MO school district thru a grant from The Healthcare Foundation of Greater Kansas City. 8/09-9/12

Katz, DL (PI): Effects of Egg Ingestion on Endothelial Function in Adults with Coronary Artery Disease: A Randomized, Controlled, Crossover Trial; Egg Nutrition Board. 8/10-7/12.

Katz DL (Co-PI) Exploring Massage Benefits for Arthritis of the Knee (EMBARK); NCCAM. 7/09 – 6/11.

Last updated: 3/28/19
